OBJECTIVE

Motivated IT graduate seeking a Graduate Engineer Trainee position to apply strong programming fundamentals in Java, Python, and JavaScript. Eager to contribute to software development projects at scale while growing technically within a world-class engineering environment.

TECHNICAL SKILLS

Java

Python

JavaScript

React.js

Next.js

Node.js

Spring Boot

Django

REST APIs

PostgreSQL

MySQL

AWS EC2

OOP

Data Structures

Algorithms

Git

SDLC

EXPERIENCE

Rajlaxmi Solution & Averlon Technologies Mar 2026 - Present

Junior Project Coordinator

- Coordinating SaaS product development including GeoTrack, Bitrix24 CRM, and TallyPrime solutions
- Managing end-to-end pipeline setup, business process customization, and client communication
- Supporting CRM automation and system configuration for enterprise clients across multiple domains

Qyuki Digital Media Pvt. Ltd. Sep 2025 - Nov 2025

Full Stack Developer Intern

- Developed web applications and dashboards for multiple brands using Next.js, Django, and Spring Boot
- Built REST APIs with secure authentication (JWT, OAuth) and optimized PostgreSQL database operations
- Collaborated with cross-functional teams on feature development, code reviews, and delivery timelines
- Automated CI/CD pipelines using n8n workflow automation for streamlined deployment

PROJECTS

Fair Pay Solution - full-stack web application

Loan settlement platform with user/admin dashboards, ticket tracking, and payment processing. Designed and implemented complete SDLC from requirements analysis through cloud deployment.

React.js | Supabase (PostgreSQL) | Razorpay API | Google OAuth | RBAC | AWS

Career Grid - job portal

Job posting and analytics platform with microservices architecture, OTP login, 2FA authentication, and REST APIs deployed on AWS infrastructure.

Next.js | Spring Boot | PostgreSQL | AWS EC2 | REST APIs

IoT Ambulance Dispatch System - proof of concept

Emergency response platform integrating real-time sensor data, location tracking, and automated dispatch notifications.

IoT | Real-time tracking | Sensor integration

EDUCATION

B.E. in Information Technology 2024

Mahatma Gandhi Mission, University of Mumbai

HSC

KM Agrawal College of Arts, Science & Commerce

ACHIEVEMENTS & EXTRACURRICULAR

- Achieved 100% SEO optimization score on production web application
- Fine-tuned Gemma Vision and Index TTS2 AI models; automated deployment via n8n
- Active GitHub portfolio with multiple full-stack projects demonstrating end-to-end development
